Dear Mr. DuFour,

Thanks for your letter.

There are indications Posner had help. That was cut out, along with most of what I'd written.

I do not know about Moynihan, but Tip O'Neill was not silent. He also included it in his book, his disbelief of the official mythology.

My guess is that the family does not believe the story and knows nothing to refute it and because of the pain just say nothing.

I hope that some way can be found to right the wrong to the degree it can be now.

Thanks and best wishes,

Harold Weisberg
